

ADVANTAGES

- High dust holding capacity
- Robust design
- Fine fibre ensures that filter maintains its efficiency throughout its life in the system
- Suitable for variable airflow

Application	Built-up filter banks, rooftops, split systems, freestanding units, package systems and air handlers
Frame	Galvanised steel
Media	Glass fiber
Rec. final pressure drop	450 Pa
Max Temperature (°C)	90°C
Comment	Media: Microfine glass media formed into full pack depth pleats separated by corrugated aluminum Recommended final pressure drop: 450 Pa (suggested economical change point 250Pa) Fire Rating: UL 900
